

EXM 12/24V Magnetic Lock

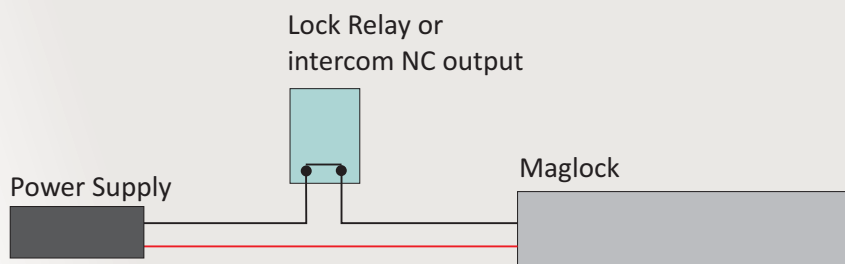

Power Supply **12V/24V DC**
Holding Force **1200lb**

Magnetic locks are an excellent choice of gate lock due to their extremely high locking force. Their lack of mechanical moving components helps them survive outside in tough environmental conditions for many years.

Main Features

- 1200lb holding force for maximum security
- 12/24V DC supply, compatible with most systems
- No moving parts ensures a long operational life in external environments
