

# Blue Wireless Intercom

Power Supply **12/24VAC/DC**  
 Range **70m 250m Max range**  
 Number of users **4**

The Blue Wireless range is both stylish and practical with a 1 to 4 button call point each connecting to up to 4 handsets. This type of intercom provides the flexibility of not needing to rely on cables running to the home or office while avoiding the higher and on going costs of a GSM based system.

## Main Features

- Digital DECT wireless intercom system.
- Stylish curved architectural model with built in illuminated code lock keypad for access control.
- 100% Marine grade BS316 stainless steel.
- 2 Year manufacturers warranty.
