

## Blue Wireless Video Intercom

Power Supply 12/24VAC/DC
Range 70m 200m Max range
Number of users 1 Video 3 Additional audio only

The Blue Wireless range is both stylish and practical with a one button call point connecting to a video handset. Three additional audio handsets can be added to the system totalling 4 handsets to the 1 call piont. This type of intercom provides the flexibility of not needing to rely on cables running to the home or office while avoiding the higher and on going costs of a GSM based system.

## **Main Features**

- Digital DECT wireless intercom system.
- Stylish curved architectual model with built in illuminated code lock keypad for access control.
- 100% Marine grade BS316 stainless steel.
- 2 Year manufacturers warranty.
