

TYRE KILLER

230V HYDRAULIC RISING SPIKES
HYDRAULIC TYRE KILLER TO SECURE SENSITIVE AREAS
 CYCLES PER HOUR UP TO 60
 LOCKING **YES**

Built- in hydraulic system with heavy duty spikes that rise from the ground to prevent access of unauthorized vehicles

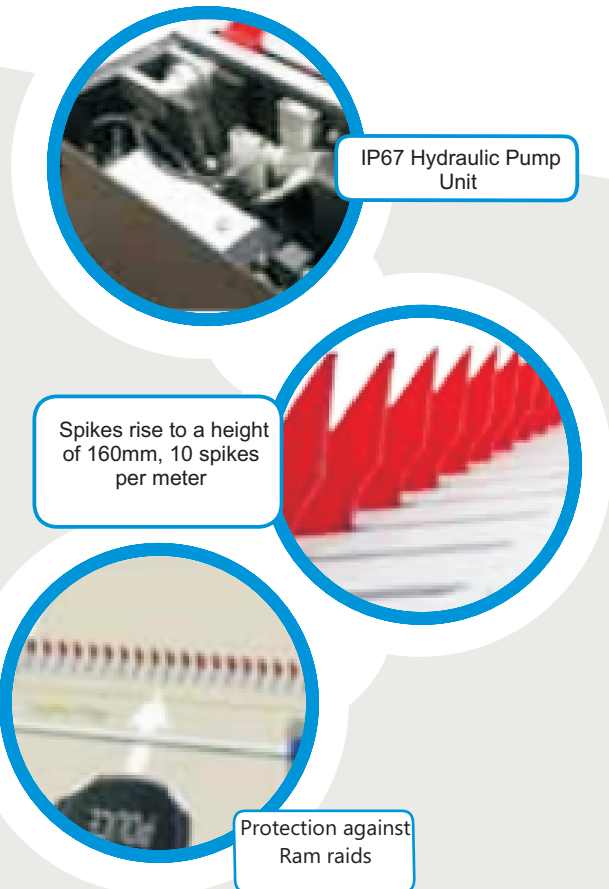

Spikes with height of 160 mm, 10 spikes each meter

Available in modules up to a maximum overall length of 5 m

Compact version with incorporated hydraulic

Specifications

Hydraulic pump capacity	4 L/min
Standard operating pressure	2.2 MPA(22 bar)
Maximum pressure	4.5 MPA(35 bar)
Operating temperature	-20°C +55°C
Hydraulic oil	SEA 0X29
Central protection degree	IP 67
Spike lowering time	1.8 sec.
Spike raising time	1.8 sec.
Spike stroke length	160 mm
Current supply	230V- 50 Hz
Absorbed current	1.65 A
Absorbed power	330 W
Capacitor	20 mF

IP67 Hydraulic Pump Unit

Spikes rise to a height of 160mm, 10 spikes per meter

Protection against Ram raids
